About Me

I am a passionate JavaScript full-stack developer with a focus on frontend development. I have a deep love for logical thinking and problem-solving. I thrive on challenges and am constantly driven to expand my knowledge and skills. I am relentless in my pursuit of growth, always seeking opportunities where I can enhance my expertise and contribute meaningfully to projects. I am enthusiastic about finding a position that not only values my current skills but also encourages continuous learning and professional development.

Education

2012 – 2015 Cracow, Poland	**Applied Computer Science** *Cracow University of Economics*

Languages

English	**Polish**	**Ukrainian**
Intermediate	Upper-Intermediate	Native

Hard Skills

HTML5/CSS/SCSS/LESS	● ● ● ● ●	JavaScript/TypeScript	● ● ● ● ○
React/Redux	● ● ● ● ○	NodeJS/Express/MongoDB/MySQL	● ● ● ○ ○

Professional Experience

11/2023 – present Remote	**Full-Stack Developer** *Backendless* **Technologies:** React, Redux, Node.js, Express.js, WebSockets • Improved and optimized the UI-builder (a low-code service), enhancing its functionality and user experience. • Developed and integrated WebSocket-based real-time communication features to improve system interactivity and responsiveness. • Worked on the FlowRunner platform, focusing on integration with external services and building a robust architecture for OAuth2 connections.
09/2024 – 12/2024 Remote	**Backend Developer** *Freelance (alongside main job)* **Technologies:** Node.js, MySQL (Sequelize), Express.js, Cloud Storage • Designed and implemented the backend architecture for the platform using Node.js and MySQL. • Developed functionality to support the full workflow: client registration, sample processing by lab technicians, result entry, and final approval with electronic signatures by doctors. • Deployed the solution on a cloud-based VPS with a production-ready configuration for high availability. • Integrated cloud storage solutions to ensure secure and efficient data management.
10/2022 – 11/2023 Remote	**Javascript Developer** *Integrality OÜ* **Technologies:** JavaScript, jQuery • Developed and optimized scripts for data restructuring and manipulation. • Participated in team initiatives to enhance workflows and project outcomes. • Delivered solutions to complex challenges while maintaining high-quality standards.
